Blockchain Developer Trainee

- Developed and deployed small-scale projects on the Internet Computer Protocol (ICP).
- Explored smart contract development using Motoko and Rust.
- Gained hands-on experience in decentralized application (dApp) development.

Projects

Decentralized Local Produce | *Solidity, React, ethersjs* [Git](#)

Sep 2024 – Present

- Built a decentralized local produce marketplace on blockchain to connect farmers with customers.
- Integrated ethersjs for wallet connection and smart contract deployment for secure transactions.

ICP Token Wallet | *Motoko/Rust, ICP, Node.js, React, Docker* [Git](#)

Dec 202 – Present

- Developed a decentralized wallet application on the ICP blockchain using ICRC method for secure token management.
- Implemented smart contract interactions using Rust and integrated frontend with React.

Land Registry v0.2 | *Solidity, Ethereum, ethersjs, React* [Git](#)

Jan 2025 – Present

- Built a decentralized land registry system on the Ethereum blockchain to track land ownership.
- Developed smart contracts with Solidity to manage property records and ownership transfers.

PradhanFresh | *Node.js, MongoDB, React* [Git](#)

Dec 2024 – Present

- Created a marketplace for fresh produce using React for frontend and Node.js backend.
- Integrated MongoDB for real-time inventory and user management.

Achievements

- Led a team to victory in the Avalanche Bootcamp at Centurion University.
- Ranked 5th in the Agoric Hackathon, demonstrating strong problem-solving abilities.

Certifications

Java Development Certificate : Issued by Telusko, December 2023

ICP Ecosystem Workshop Certificate : Issued by ICP Crewsphere India, August 2024

Avalanche Hackathon Participation Certificate : Issued by CampusToCrypto, February 2024
